## TOO MUCH TRUTH.

IT COST THE MISSOURI REPUBLICANS \$65,000.

And Secretary Isaacs Loses His Head for Telling It and is Now Out of a Job.

A Kansas City special to the *Re-public*, of date September 28th, has the following account of a disgraceful row among republican leaders:

"Major John T. Blake of the republican state committee, and Warner's personal representative in that organization, will be arrested to-morrow on a warrant sworn out to-day by Isaac Isaacs, late secretary of the republican state league. The warrant charges that Blake did 'unlawfully disturb the peace of complainant by loud and unusual noise, by loud and indecent conversation, by cursing, swearing, quarrelling and threatening, to-wit: By calling complainant a Jew of a' all of which the warrant charges was against the peace and dignity of the state."

As a result of the meeting held Monday evening by Blake, Bittenger, Bothwell and others of the state committee, and Harkless, Cutler, Bradbury and others of the Republican State League, Secretary Isaacs of the league, tendered his resignation upon condition that he should be paid the seven months' salary for which the league was then in arrears. Late yesterday afternoon President Harkless and Treasurer Cutler called upon Isaacs at the league headquarters and gave him a check for \$425, in observance of the conditions upon which the resignation had been tendered.

While the two officials sat there, Vice President Bradbury, positively the only genuine Ethiopian vice president the league ever had, entered the room and urged in excuse that Blake had sent him there. Soon after, another son of Africa, in the person of one Lynwood, also sauntered in. Having thus thrown forward his forces, Blake himself valorously appeared.

"How'd he do like?" he said feebly, gloating over the secretary for whose scalp he had long been hungry.

"Go away, Mr. Blake," answered Isaacs, "I don't want to talk with you."

Thereupon the blood ran up under Mr. Blake's thin skin and he said, "You d—d Jew s— of"

Isaacs was about to strike him, but was deterred by consideration of the man's age and feebleness, and moreover the two negroes sprang to their feet suggestively. The warrant was sworn out to-day before Justice Brown, and Blake will be arrested to-morrow. The maximum penalty, upon conviction, is six months in jail or a fine of \$500 or both, at the discretion of the judge.

The state committee will soon be asked to request Blake's resignation upon penalty of Warner's being held responsible for Blake's utterances in the event that Blake is continued as a member of the committee. It is well known that Blake is merely Warner's mouthpiece, and in all things the reflection of Warner's thought, being himself colorless and weak. No one thought him so rash as thus to give offense to the Hebrew people, who have contributed materially to the prosperity of the people, and while the epithet applied to Isaacs does not sound as pretty as "Stand up for Missouri" it appears to be much more republican.

The true reason for the determination of Blake, Bothwell Bittenger and that crowd to force Isaacs out of the league came to general knowledge to-day. When Isaacs was in St. Louis recently he told ex-Congressman Allen, of Michigan, that Warner would certainly be beaten about 35,000 votes. Allen at once carried the story to the republican national headquarters, at the very time when there was under consideration an urgent application for money for use in this state. It had been represented that a little money were set apart for Missouri, Warner would carry the state and perhaps pull Harrison through. It had nearly been resolved to give the state committee \$65,000, when Allen came in with his story, said that money given to Missouri would be squandered, and quoted as his authority the secretary of the republican state league that Warner would be beaten 35,000 votes. So

the whole project fell through, and therefore it was that when Bittenger, of St. Joseph, arose in Monday's secret session to asked for Isaacs' head, he said, bitterly, to his intended victim:

"D—n you, you have cost us \$65,000."

All the disaffected republicans of Kansas City are now strengthened in their disaffection by the evident hostility of the Warnerites, and without respect to party the Hebrews of the city announce their purpose of resenting effectively the insult heaped upon them all in the person of one of their number."

## RICH VEIN OF LEAD.

It is Not a Pocket of Lead, but a Sure Enough Vein.

A DEMOCRAT reporter visited the sewer extension in the northwestern part of the city this morning, for the purpose of examining the lead deposits found by the workmen in excavating the ground for the sewer.

Mr. W. F. Renfrow, of Warrensburg, who has charge of the work, very kindly assisted the reporter in his investigations. He is an expert in lead mining, having worked in the mines in Leadville, Joplin and other parts of Missouri, and says, without hesitation, that the prospect for lead in large paying quantities are the finest that he ever has seen. The ore found at this place is taken out of what he says is a vein and not a pocket, and runs northeast and southwest. The ground is composed of red clay, flint and tuff, there being large quantities of the latter, a sure indication of lead. There is a high ridge running north and south of the sewer into which this vein no doubt extends, and, judging from the sample of lead and tuff already taken out, there is certainly good prospects for lead in large quantities. Further developments will be made in this matter, and we expect to learn that the owners of the ground have rich lead mines in their possession.

Hurrah, for the Sedalia lead mines.

## THE STATE MILITIA.

Will Very Likely Not Assist in Opening the Columbia Exposition.

It has been the intention of the state officials to send a regiment of the best men in the National Guard to Chicago to assist in opening the Columbia exposition on October 21; in fact the men have already been chosen at the command of the adjutant general, and were to have left for Chicago on October 19. Twenty-six of the rifles were chosen to represent company D in the encampment, and of course the boys were all anticipating a grand time.

Thursday morning Captain Demuth received a letter from Adjutant General Wickham stating that they could not get free transportation, and asking if the rifles would be willing to pay one cent per mile each way, provided their expenses were paid while in Chicago.

The letter will be read to the company for them to take action on, and the chances are very much in favor of a decision on their part to remain at home, as the trip would cost them \$10 for railroad fare without counting the loss of time and salary while absent.

## Jackson County All Right.

Judge James Gibson and Hon. W. S. Cowherd, mayor of Kansas City, spoke at a democratic rally at Warrensburg last night and went to Tipton this morning, where they are billed to speak this afternoon.

Judge Gibson has canvassed the entire state within the past four months, and says he never saw the party so united and so much harmony in the ranks as now. He predicts Stone's election by a majority ranging anywhere from forty to sixty thousand.

When asked about the alleged Warner democrats in Jackson county, he replied that it was true that they had had one man who claimed to be that kind of a democrat, but that he was landed in jail in a short time after his arrival there for some offense or crime, and that all this talk about carrying Kansas City and Jackson county was all bosh—rot of the worst sort—and originated with republicans, and probably by the same parties who were abusing him for no greater crime than that of supporting Stone for governor. "But," remarked the judge, "they appear bound to have something to help them keep up a little courage, and whistle while passing on to their political graves. I can stand it if their readers can."

## TEXT BOOK CASE.

GOVERNOR FRANCIS WRITES A LENGTHY LETTER.

He Wants the Sedalia School Board Hauled Over the Coals in the Criminal Court.

The readers of the DEMOCRAT will remember that a short time since an injunction case was commenced in the courts here to restrain the Sedalia school board from using in the public schools any text book on grammar except Hyde's Lessons in English.

The case was set for hearing at the next term of the circuit court, but the following letter from Governor Francis revives it:

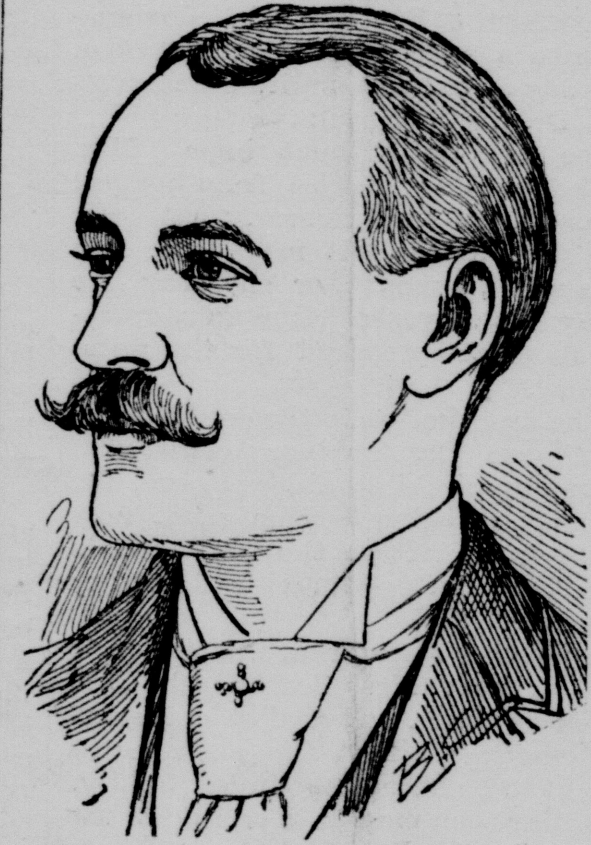

JUDGE E. H. NORTON, Platte City, Mo.—DEAR SIR: I inclose a communication received yesterday from D. C. Heath & Co., publishers of "A course of text books on the subject of English grammar," which books said firm has entered into a contract with the state through the Text-Book Commission to furnish to the children of the public schools of Missouri. You will observe that the letter states that the school board of Sedalia "has announced its determination to set aside, in part, at least, the provisions of the law." I cannot believe that this statement is entirely correct, as the school board of Sedalia is, or should be, composed of intelligent citizens, who should know that it is their duty to observe the statutes of the state concerning text books to be used in its public schools. I have not seen the contracts made with the publishing houses by the text-book commission, and do not know whether these contracts provide that the state, as a party thereto, shall require all school boards in Missouri to adopt only the text-books selected by the commission. The law, however, prohibits the use in the public schools of any text-book other than those contracted for by the commission, and provides a penalty for its violation. If the contract entered into by the state is in accordance with the law, and if the publishers are complying with the same in letter and in spirit, the school board or director who sanctions or permits the use of any other text-book should be made to pay the penalty therefor. If the Text-Book commission is not disposed itself to file information against offenders in this line I think they should give moral support to prosecuting attorneys in the enforcement of the law. If the Sedalia school board, or any other one, is permitted to violate the law with impunity, others will do likewise, and the law will become inoperative and a travesty on legislation. Your work will be without result and the state will have been put to useless trouble and expense. If it is the intention of the Sedalia school board, as charged, to test the validity of the act creating your commission, and of the contracts made thereunder, no more opportune time for meeting such an attack could be selected than at its inception. If it should be the policy of any school board in the state to violate the law and pay the fine of \$5 to \$25, provided as a penalty therefor, in the expectation that said fine will exculpate it from further penalty, such impression should be promptly removed, and the prosecuting attorney advised that each day's use of text books prohibited by the commission is a separate offense, and should be punished accordingly. If the law is defective or its penalties too light to insure its observance, I desire to be advised thereof at the earliest practical date, to the end that I may recommend remedies to the thirty-seventh general assembly.

Prof. Wolfe, ex-officio president of the commission, was in Sedalia yesterday, and I inclose a letter from him, which is self-explanatory. Any suggestions you may make as to alterations in the law will be gratefully received and given that weight merited by their distinguished source. My intelligence concerning the work of the commission justifies me in stating that it has performed its duties faithfully and efficiently, and that the result will be of great benefit to the people of the state. With assurances of my high esteem, I remain, Yours, respectfully,

[Signed.] DAVID R. FRANCIS. It is not the purpose of the DEMOCRAT to attempt to try a lawsuit in the columns of a newspaper. After a case has been commenced in the courts of the state, the public is generally content to await an adjudication by a fair and impartial tribunal, but the governor's letter demands some attention.

The DEMOCRAT learns, from what it believes to be reliable authority, that the Sedalia school board went to work in good faith to obey the law of the state as the members of the board understood it. That "Hyde's Practical Lessons in English" was introduced in the schools and used in the various grades, as required by law; but that after these books had been used and completed the board sought to supplement, not to displace, them with technical instruction in grammar as taught in Harvey's Grammar.

The DEMOCRAT's respect for the courts precludes such a policy.

But if the governor desires to run a tilt with anybody on the subject, the DEMOCRAT would remind him that he will find an opportunity in St. Joseph and Springfield, where scarcely a pretense is made of using the books adopted by the commission; so at least the DEMOCRAT is informed.

both sides of the controversy before he rushed into print with the assumption that the Sedalia school board intended to violate the law of the state.

The people of Sedalia are proud of the public schools; they pay high taxes to maintain them; they realize that nineteen-twentieths of the boys and girls of the city can never receive a collegiate education and they want to make their schools as thorough as possible.

Having used the books required to be used, the board attempted to make the instruction more comprehensive and more thorough by supplementing these text-books with additional technical instruction.

In all kindness the DEMOCRAT does not believe that this authorized Governor Francis to rush into print with vague threats of criminal prosecution of the fathers of young Missourians for daring to teach more than was authorized by law.

But the case is to be tried in the courts and the DEMOCRAT cannot—even if the governor can—consent to forestall that fair and impartial trial by one in the public press.

A Pretty Souvenir.  
The Missouri Pacific, ever in the lead in all matters, is sending out a perfect gem of pamphlets in the way of a programme of the St. Louis exposition. It contains a complete list of the attractions at the exposition daily and at the theatres at night; also a very fine cut of some of the most beautiful and striking decorations on the streets. The little pamphlet is a pretty souvenir of the exposition.

## CIRCULATION.

There are more Sedalia people regular readers of the EVENING DEMOCRAT than any other paper.

WHAT has become of the convention hall project? Is it to go over until another year?

OH, how weary the *Gazette* has become of the story of Warnerism and Rodmanism in Missouri!

SEDALIA has a cordial welcome for all citizens who come to carry on legitimate business enterprises.

WORK is progressing on Seventh street. That is right, but there are several more streets that ought to be paved.

THE *Gazette* seems to have let up on Mike Doherty for awhile. Did the friends of Sheriff Smith silence the battery?

THAT is a pretty lively row going on in the republican state league and which cost Secretary Isaacs his official head.

SEDALIA should keep up an interest in the north and south railroad. The building of such a line would be worth millions to the city.

THE race meeting in this city will afford the horsemen of Missouri a chance to observe the performance of the fastest trotters in the world.

A GREAT deal of eastern money has been invested in Pettis county, Editor Streit to the contrary notwithstanding, and there is room for millions more.

A BAD little boy threw an ancient egg at Gen. Weaver in Georgia, and the great statesman got mad, left the state and declares there is no free speech in the south.

OF the white people of the United States a very large majority are democrats. Then how can Missouri hope to attract immigration by re-instating the republicans in power?

MAJOR WARNER pointed with pride to the record of his party in this state. Now, however, his supporters are fleeing from the hideous specter and swearing that it has no

business to appear upon the stage during the play. They should have put their apologies in their party platform and then named a candidate who represents the best aspirations of the republican party rather than one who stands for the old ballot-burning period of Missouri history.

If a protective tariff does not decrease importations of foreign made goods and enable American manufacturers to sell more goods at higher prices than they would sell under a revenue tariff, how in the name of common sense does it enable them to pay higher wages? The esteemed *Gazette* gets out of its element when it undertakes to talk tariff.

WHY don't the republican committee circulate Hon. Henry Lamm's speech as campaign material in this congressional district? Is it because Saint Henry's denunciation of the force bill was interpreted as a slap at the republican candidate for congress who announced himself in favor of that infamous measure?

THE report of Labor Commissioner Hall shows that the per capita farm mortgage indebtedness is \$100 in Illinois, \$104 in Iowa, \$126 in Nebraska, \$170 in Kansas, and only \$80 in Missouri. This is the result of wise, conservative and honest government in the grand old democratic state of Missouri.

THE voters of Massachusetts, Pennsylvania, Iowa and Nebraska, all once strong republican states, have repudiated republican rule and chosen democratic governors. Missouri cannot afford to move backward into a policy they have been compelled to abolish.

THE republican leaders boasted of Warner's ability to mop up the earth with any democratic candidate for governor, but now all this valor has simmered down to an earnest desire to have Leonard meet Stone. Are they already ashamed of their candidate?

THE esteemed Kansas City *Journal* has an editorial under the caption "Daylight in Missouri." Yes, thank you! There has been daylight in Missouri ever since the era of ballot burning was brought to a close by the expulsion of radicalism from official position.

NANCY HANKS beat her former record yesterday and trotted a mile in 2:04. There is good reason to believe that even this mark will be lowered by the performance of the trotting queen in this city, as the Sedalia track is said to be the best in the world.

THE republicans are anxious to have Col. Stone meet Mr. Leonard in joint debate. We fail to notice any great anxiety on their part to have Maj. Warner divide time with the democratic candidate. If they want a joint debate they can be accommodated.

THE republican leaders don't seem to have enthused over Hon. Henry Lamm's speech at the court house. And yet it takes the only ground the republicans can stand upon, an abject apology for the past and a refuge in the statute of limitations.

WHY should Missouri try republican rule when former republican states are tired of it? Pennsylvania, Massachusetts, Iowa, Kansas and Nebraska have all grown tired of republicanism and elected democratic governors.

WHAT is the matter with Editor Streit? It has been several days since he has assured the world that "no eastern money has been invested in Pettis county for twenty years." Is he going to quit standing up for Pettis county?

THERE is no occasion for a panic on the cholera question. At the same time precautions should be taken to prevent the spread of epidemic disorders and the city put in the best possible sanitary condition.

BLAINE is going to spend the winter in Washington. He will, says an exchange, take a good deal of pleasure in watching Harrison arrange his worldly affairs for a return to Indianapolis after March 4.

THE DEMOCRAT has the greatest respect for Governor Francis as an

honest, conscientious official, but when citizens of this state are engaged in a lawsuit with a school book firm, the DEMOCRAT does not feel that the governor is doing his duty when he rushes into print as an advocate of the firm. When Sedalians have been adjudged guilty of violating the law they should be classed as criminals, not before.

CERTAIN republican statesmen in Sedalia will blush with shame when they read the following from the Kansas City *Journal*: "Fusion itself is demoralizing to men who have any depth of principle."

A PROMINENT republican was joking Dr. McClure about "setting the woods on fire" the other evening when the doctor exclaimed: "Ah, yes, Bud! but we didn't burn any ballots."

THE republican leaders are terrified at the broadsides of truth Col. Stone is pouring into their party and are anxious to create a diversion by imploring Stone to meet Leonard in joint debate.

Will Add Another Story.  
F. E. Hoffman has decided to add another story to his building on the corner of Fifth and Ohio streets. This will make the building five stories high and the tallest structure of the kind in the city. All above the ground floor will be divided into offices.

Card of Thanks.  
I desire to thank all my friends for their kindness to me in my bereavement, and to assure them that it shall not be forgotten, but treasured as a sweet remembrance of a sad hour in my life.

MRS. F. K. TULLINGER.

A Cholera Scare.  
A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's colic, cholera and diarrhoea remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by Aug. Fleischmann, Druggist.

Tom Ryan and Wm. Ward were fined \$5 each for trespassing and given a stay to leave the city. Dan Clark, arrested for vagrancy got a fine of \$10 and a stay.

Too Much of a Risk.  
It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's cough remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Aug. Fleischmann, Druggist.

## HER CASE HOPELESS

The Unfortunate Wife of President Harrison Past Recovery.

DR. GARDNER TO A REPORTER.

He Says She May Die at Any Moment and Describes Her Disease—The Patient Rallies in the Morning and Falls in the Evening.

WASHINGTON, Sept. 29.—In conversation with a relative of Mrs. Harrison yesterday as to her condition and prospects, Dr. Gardner said:

"The case is without hope. Mrs. Harrison will never arise from her bed again. There is, however, no telling when she will die. It may come in a day, a week, a month, or she may live as long as two years. However, everybody should be prepared for the worst any time."

On being asked as to the condition of the disease Dr. Gardner continued: "As has been said all along by me, the imminent, pressing trouble right now is her lungs. It is the lung trouble which holds her down and is dragging her down."

Dr. Gardner's attention was called to the fact that Mrs. Scott-Lord, Mrs. Harrison's sister, had died of cancer of the stomach and that the malady was thought to be hereditary in her family. "Mrs. Harrison may have cancer of the stomach," said Dr. Gardner. "Cancer of the stomach is not always discoverable, and especially in its first stages, but at least this is not what is bearing her down at this time. It is the lung affection which has now a hold upon her."

No unusual change has taken place. Mrs. Harrison was resting quietly with the aid of opiates. There is no credence to be placed in the stories that her condition is better. As the day grows she arouses and exhibits more life and strength, which falls again as night comes on. This information can be relied on. It comes from inside the White house.

THE PRESIDENT BUSY.  
WASHINGTON, Sept. 29.—Senator Higgins and ex-Representative Pierce, of Indiana, were the only visitors received by the president in his office and the fact that Mrs. Harrison rested comfortably most of the time, enabled the president to dispose of considerable routine business during the day.

Mrs. Charlotte Smith, president of the Woman's Industrial league, called at the White house this morning with eighty young women, representing various industrial organizations of New York. They had a pleasant interview with Private Secretary Halford and left with him a memorial to the president, urging his prompt recognition of the working women's cause, with a view to securing their cooperation in the present political campaign.

At 1 o'clock the president went down stairs to the east room and shook hands with nearly 800 people, including a number of Grand Army men. These tri-weekly afternoon receptions to the public will be continued for the present. They are held Mondays, Wednesdays and Saturdays, at 1 o'clock.

## TO PROTECT A MURDERER.

A Company of Militia Ordered Out By the Governor of Florida.

JACKSONVILLE, Fla., Sept. 29.—The governor has ordered the Ocala rifles to assist the sheriff of Marion county in protecting York Ballard, a prisoner, from lynchers. Yesterday Ballard lay in wait for Charles Shafer, whom, when he appeared approaching his own house, Ballard shot and instantly killed. He then surrendered himself to the sheriff.

A few years ago Ballard and Shafer's stepson were both in love with the same girl. She married the latter. Ballard then began to send scurrilous writings and obscene letters to her through the mails, for which he was tried, convicted and sentenced to eighteen months in the Columbus, O., penitentiary. He was released about a week ago and returned directly to Ocala to carry out his threat made at the time of the trial, to kill Shafer as soon as he was a free man. Shafer had been the principal witness against him, and the people are highly indignant at the murderer and threats of lynching are made.

Republican Mass Meeting.  
NEW YORK, Sept. 29.—The first republican mass meeting of the present presidential campaign in this city was held in Cooper Union. The hall was decorated with American, German and Irish flags. Among the prominent men who spoke at the meeting were Whitelaw Reid, Thomas C. Platt, Chauncey Depew and Warner Miller. A large crowd was in attendance.

Great Fires on the Strip.  
GUTHRIE, Ok., Sept. 29.—Thousands upon thousands of acres of seething flames are to be seen upon the Cherokee strip. The boomers, becoming enraged at the slowness with which the cattle are being removed from the coveted land, have set fire to the grass, and as it is very dry, it burns with great rapidity. There is no chance to check the fire, and it is thought many cattle will perish.

Golden Wedding.  
FAYETTE, Mo., Sept. 29.—John McCrary and his wife celebrated their golden wedding in this county yesterday. The minister who married them fifty years ago was present, as were their eleven children and thirty-five grandchildren.

Under the Wheels.  
GUTHRIE, Ok., Sept. 29.—A stranger named Carpenter attempted to board a moving train at the Santa Fe depot, was thrown under the cars, had one leg cut off and sustained other injuries.

Eligible.  
He—Will you marry me.  
She—No.

He—Whom are you going to marry?  
She—I shall marry whom I please.  
He—Well—you please me!—Puck.

## NEW GRADING.

The Illinois Board Issues New Rules Governing Grain.

CHICAGO, Sept. 29.—The state board of railway and warehouse commissioners, on the recommendation of the Chicago board of trade, has promulgated the following rules to become effective unless cause is shown why they should not at the next meeting of the board: The word "new" shall be inserted in each certificate of inspection of a newly harvested crop of oats until August 15, of rice until September 1, of wheat until November 1, and of barley until May 1 of each year.

This change shall be construed as establishing new grades, for the time specified, to conform to the existing grades of grain in all particulars, excepting the distinction between the new and the old crops and shall apply to grain inspected from store for two months after the times respectively above specified.

Northern wheat must be northern grown spring wheat, sound and well cleaned, and must contain not less than 50 per cent. of the hard varieties of spring wheat.

Big Woolen Mill Burned.  
WARREN, Mass., Sept. 29.—The woolen mill of Styles & Jenks was wholly burned yesterday afternoon. The main building was 40x25 feet, and four stories high. In addition to the main structure were a three story addition, 60x40; a one story dye house, 40x40; a one story wheel and picker house, 40x40; a three story house, 40x75, packed full of wool; a frame store house, 30x40; a two-story brick house, 30x125; four tenement houses and an office building, all being burned with their contents. The loss is about \$300,000, insured for about \$207,000. The mill was for manufacturing fancy cloackings, employed about 200 hands and was running overtime to fill orders.

A Dry Outlook.  
FORT SCOTT, Kan., Sept. 29.—The drinking clubs of the city are now closed or are preparing to close. They have been insidiously trapped by the internal revenue collector of Kansas. Yesterday each club received from Internal Revenue Collector Cy Leland, through his deputy, Maj. E. J. Peek, a notice to the effect that they will hereafter be required to take out a United States government license or discontinuance. To take out a license permitting them to handle liquor would be evidence against them in the police or district court sufficient to convict, and there is nothing left but to disband and quit the business.

Dealers in Chinamen Tremble.  
DETROIT, Mich., Sept. 29.—B. L. Montgomery, of New York, was arrested on the charge of smuggling Chinamen across the border. He has, the police say, made a confession implicating a number of prominent people in Detroit, Chicago and New York. The United States authorities believe that Montgomery's confession will result in the destruction of a gigantic smuggling conspiracy that has existed for months.

Will Wind Up Its Business.  
NEW YORK, Sept. 29.—Justice Beach, of the supreme court, has appointed Wright Holcomb as referee in the proceedings to dissolve the Knickerbocker Fire Insurance Co., a corporation which has had a life of eighty years. Competition has made the business no longer profitable.

—The date of completion of the new navy of seventy ships of 310,000 tons displacement, carrying 540 heavy guns, was fixed for April, 1894, but so unexpected rapid has been their construction that all but one are expected to be afloat a year earlier. The London Spectator says: "In the United States alone, where last year the total output of iron exceeded that in England, has this rapidity of naval construction been approached during the year—a fact which those who doubt the possibility of the sudden construction of a modern fleet by any great manufacturing nation would do well to bear in mind." Great Britain has now 140 ships, 1,868 heavy guns, 1,715 light, quick-firing guns, with 13,000 men on the active list and 5,000 in reserve. The "Royal Sovereign," of this navy, is said to be the largest battleship in the world.

## AN EX-SLAVE'S DEVOTION.

He Gave Proof of It by Stopping a Bullet Intended for His Master.

There lives near Kirksville, Mo., an old colored man, who can tell what is probably the most romantic and at the same time pathetic story of the days of slavery, of any of those who have survived the terrible time. George Anderson was a slave for forty years, and is now so old that he can do nothing but sit in the chimney corner and think of the past. He was raised under an indulgent master until he was twenty-five years old and married a girl on the plantation, living happily until the time of the death of the owner of the place.

Then came trouble to the slaves on the plantation, for the master had been careless and owed much money. His slaves were sold, and in selling them Anderson and his wife were separated. He had a good master again, but his young wife was sold to a man who was noted for his cruelty, and it almost meant death for any of his slaves to cross him. The colored man determined that his wife should not be subjected to the cruelties of the new master and made arrangements to get her away to the north and suffer the consequences of freeing a slave.

His plans were successful and his wife was spirited away by that "underground railway" known to the slaves before the war. She went to the north and Anderson was caught while returning to his home. He was caught by the owner of the escaped woman and taken to his own master and his life was demanded as a forfeit. This his master would not agree to and a duel was the consequence between the two slave owners.

The poor negro saw that his master was liable to be shot for protecting him and with rare devotion he threw himself before his body just as the command to fire was given, receiving the ball intended for his master in his body. He lay for weeks between life and death, but finally recovered, and the trouble between the two men was lost in the war between north and south, which soon followed this episode.—Philadelphia Press.

## AMUSEMENTS.

A Texas Steer.

Charles H. Hoyt.

Charles H. Hoyt, the acknowledged peer of comedy writers, and who has furnished the stage so many laugh provoking pieces, has never written anything quite so funny as "A Texas Steer," in which he satirizes politics as only Hoyt can do.

There never was a farce comedy production that could in any way compare with this famous skit, and when presented by such an admirable company as the one that will be seen here Monday night, Oct. 3rd, it furnishes an entertainment for which the play going public shall ever be grateful.

## IN 2:04.

Nancy Hanks Surprises the Horse-

flesh World.

A REGULATION TRACK RECORD.

The Little Mare Driven By Doble a Mile in

2:04 at Terre Haute, Ind.—Monbars  
Also Breaks a Stallion  
Record.

TERRE HAUTE, Ind., Sept. 29.—The  
world's record for the light harness  
horse, either trotting or pacing, was  
lowered yesterday when Nancy Hanks  
trotted the mile in 2:04.

The 10,000 people who sat  
breathless for a moment after the little  
mare passed under the wire, and even  
Doble, always modest of speech, de-  
clared, when carried to the judges'  
stand on the shoulders of the crowd and  
called upon for a speech, that he "was  
hoarse because Nancy Hanks went so  
fast it took his breath away."

It was about half past 4 o'clock when  
the scrapers put the track on edge and  
Starting Judge Walker announced that  
Nancy Hanks would go to beat her  
record of 2:07 made over the regulation  
track at St. Paul. The daughter of  
Happy Medium had been worked two  
miles in 2:36 and 2:25 respectively  
earlier in the afternoon. The runner,  
Abe Lincoln, stood opposite the flag,  
while Nancy was taken well up the  
stretch for the start. Coming like a  
whirlwind down the stretch Abe was  
at her wheel and Doble nodded for the  
world. The clip was a terrific one. She  
was at the eighth in 15 1/2 seconds and  
at the first quarter in 31 seconds.

The second, and up hill quarter, was  
done in 31 1/2 seconds, the half being  
reached in 1:02 1/2. The excited crowd  
began to cheer, but at a word from the  
judge lapsed into silence. This was  
only broken by murmurs when the  
third quarter was done in 2:07 1/2 seconds.  
Even the judges were appalled at the  
wonderful burst of speed and thought  
the mare was running away. So fast  
did she come that no one could tell her  
gait. On she flew and into the stretch,  
never faltering. Doble, clucking gently,  
"whoa" to keep her steady, squared her  
away for the great flight home. Even  
her light hoofbeats sounded loud to the  
silent crowd. As Doble gathered her  
for the final effort he touched her  
gently with the whip, gave two or  
three masterful lifts of his and the  
world's record, either pace or trot, was  
lowered one and one-fourth seconds and  
the record for regulation track three  
seconds.

The excitement over the great mile  
did not really begin until evening,  
when crowds gathered about the hotels.  
Nearly every noted driver in the coun-  
try is here, and all are unanimous in  
declaring that it was the most won-  
derful mile ever done. Mr. Doble received  
hundreds of telegrams of congratula-  
tion from all over the country. He  
wired Mr. Bonner: Nancy Hanks, 2:04  
over a regulation track. This is a  
gentle hint that the owner of Maud S.  
and Sunol can present him the \$5,000  
offered for the horse to trot a mile in  
2:05 over a regulation track.

Mr. Doble said last evening that too  
much credit could not be given Ben  
Kenny, who brought out Hanks and  
gave her her first race record. "The  
more I see of her," he added, "and the  
longer I handle her, the more credit I  
give Kenny. The little mare is of  
sweet disposition, but easily spoiled,  
and I feel proud to know that she should  
have first gone into the hands of a man  
who knew just how to handle her."

Mr. Doble was questioned about  
the great mile and asked if he  
thought Hanks had reached her limit.  
He said the track was just right, the  
mare was just right, and the driver was  
at himself. As to the possibilities of  
Hanks lowering her record he thought  
that, as she is only 6 years old, she  
would train on next year and be even a  
better mare than now.

The official time of the mile is: To  
beat 2:07 Nancy Hanks, by Happy Me-  
dium, had Nancy Lee, Doble, 1. Time,  
31.102%; 1.324%; 2:04.  
Not only was the world's record  
broken, but the three-year-old stallion  
record made in 1889 by Axtell when he  
trotted over this track in 2:12 was low-  
ered by Monbars, the black son of Eagle  
Bird. He was accompanied by a runner  
and made the quarters as follows: 33%;  
1:07%; 1:39%; 2:11%.

**The Coal Creek Insurrection.**  
KNOXVILLE, Tenn., Sept. 29.—The  
grand jury of Anderson county found  
two indictments against D. B. Monroe,  
the alleged leader of the miners in the  
Coal Creek insurrection. One indict-  
ment charges him with murder in the  
first degree in the killing of Private  
Frank Smith, of Chattanooga in the as-  
sault on Fort Anderson. The other  
charges him with a felony in aiding and  
abetting in the removal of the convicts,  
and the attempted destruction of the  
stockade at Coal Creek.

**Singer Machine Works Burned.**  
ELIZABETH, N. J., Sept. 29.—Fire in  
the Singer machine works at Elizabeth-  
port destroyed the cabinet and carpenter  
shops, each 300 feet long and three  
stories high. The flames also commu-  
nicated to the roundhouse in the factory  
yard and this was also destroyed, with  
three locomotives and several freight  
and coal cars belonging to the Central  
railway. The total loss is \$65,000.  
Charles Galloway was buried under the  
walls and is believed to be fatally in-  
jured.

**Indicting McDonald.**  
CHICAGO, Sept. 29.—The grand jury  
this afternoon decided to indict M. C.  
McDonald for bribery. The indictment  
will probably be returned to-morrow.  
McDonald is the widely known politi-  
cian and sporting man. The alleged  
bribery was payment of \$300 to Justice  
of the Peace Charles W. Woodman to  
influence a decision in favor of the Gar-  
field park race tracks.

The steamship Watertown was burned  
at Shirley Gut, near Boston. The wife  
of the steward jumped into the water  
and hurt herself so that she died. All  
others escaped.

## PREPARING TO ACT.

**New York Will Take Steps Against the  
Reading Coal Combination.**  
ALBANY, N. Y., Sept. 29.—Daniel G.  
Griffin, counsel for the special senate  
committee which has been investigat-  
ing the Reading railroad combination,  
held an extended preliminary consulta-  
tion with Attorney-Gen. Rosendale. The  
subject discussed was the action to be  
taken by the attorney-general on the  
recommendation of the senate investi-  
gating committee that action be taken  
to annul the charters and leases of such  
railroad corporations in this state as  
belong to the Reading coal combina-  
tion.

The conference was adjourned until  
some day next week, when Mr. Griffin  
will go over the testimony adduced by  
the committee with Mr. Rosendale be-  
fore the latter decides on what course  
should be taken. Mr. Griffin said that  
he had no doubt that the attorney-gen-  
eral would see that the position taken  
by the committee was a right one.

**McKinley Coming to Missouri.**  
CLEVELAND, O., Sept. 29.—Gov. Mc-  
Kinley spoke at Wellington, O., to a  
mass meeting of between 4,000 and 5,000  
republicans. He devoted himself prin-  
cipally to the two candidates in the  
fourteenth congressional district, Con-  
gressman M. D. Harter, democrat, and  
E. D. Johnson, republican. This was  
Gov. McKinley's first speech in Ohio  
this year, but it was made with special  
reference to the contest in the four-  
teenth district, and was not considered  
as an opening of the campaign in the  
state. Gov. McKinley left for Washing-  
ton, Pa., where he will speak. From  
there he goes to Missouri in the interest  
of Gen. Warner, the republican candi-  
date for governor.

barrels of cement, the cooper shop and

houses and the kilns were saved. The  
loss is estimated at \$25,000; insurance,  
\$8,800.

the Parnellites are willing to accept a  
statutory parliament, with an execu-

the supremacy of the imperial parlia-

which alone Irish members shall have  
the right to sit and vote at Westminster.

## DEADLY FLASH.

A Kansas Farmer and Three of  
His Family Killed.

HOUSE BURNED TO THE GROUND.

Neighbors Discover the Bodies on Search-  
ing the Ruins—Seven Men Killed By  
Nitro-Glycerine—Shocking  
Death of a Workman.

OTTAWA, Kan., Sept. 29.—The farm  
house of Sam Atkinson, a farmer living  
about two miles south of Le Loup, the  
first station north of this city, was  
struck by lightning and burned to the  
ground.

Mr. Atkinson, his wife, a five-year-  
old boy and a baby 6 months old, which  
comprised the whole family, were  
burned to death.

The accident was not discovered until  
his neighbors found among the smok-  
ing ruins of what was a happy home the  
charred bodies of the father and chil-  
dren near where the bed had stood.  
Mr. Atkinson's body was found in an-  
other part of the ruins, which would  
seem to indicate that either she was  
out of her bed closing the windows at  
the time the lightning struck the house  
or else she made an unsuccessful at-  
tempt to escape. Probably the former  
was the case.

All the members of the family were  
evidently stunned by the shock, so that  
they could make no effort to get out of  
the burning building.

**HORRIBLE DEATH.**

mass of molten copper. The flesh was  
burned from his face. He was 35 years  
old, unmarried and had been employed  
at the smelter since the works started.

**SEVEN MEN BLOWN UP.**  
COLUMBUS, O., Sept. 29.—At 2 o'clock

from Lima, exploded, jarring houses in  
that town and killing seven men.

**TWO NEW VESSELS.**  
A Cruiser and a Battle Ship to Be Con-  
structed Under Contract.

WASHINGTON, Sept. 29.—Under the au-  
thority conferred by the last naval ap-  
propriation bill providing for the con-  
struction of the two new vessels for the  
navy, one a sea going battle ship of 9-  
000 tons displacement and one an  
armored cruiser of 8,000 tons displace-  
ment, proposals were issued by the  
navy department for their construction.  
The contract work guarantees that  
when the battle ship is completed and  
tested the speed shall not be less than  
an average of sixteen knots an hour,  
maintained successfully for four con-  
secutive hours. The contract for the  
construction of the cruiser requires that  
she must develop a speed of not less  
than twenty knots under the same con-  
ditions as are prescribed for the battle  
ship. Each vessel must be completed  
within three years from date of the con-  
tract, and proposals must include the  
construction of both the vessel and her  
machinery complete in all respects.

**PAROCHIAL SCHOOLS.**  
The Catholic Congress Resolves in Favor  
of Their Establishment.

NEWARK, N. J., Sept. 29.—At the  
meeting of the Catholic congress among  
others the following resolution was  
adopted:  
Following the many declarations of the holy  
see, particularly of Pius IX. of blessed memory  
and our present gloriously reigning holy father,  
and abiding with the direction of our  
episcopate and the third plenary coun-  
cil of Baltimore, with proverbial grati-  
tude we hear the energetic utterances of  
many of our right reverend bishops who with  
great emphasis demand the establishing and  
maintaining of parochial schools, especially  
that of the most reverend bishop of Illinois. We  
protest most emphatically against any attempt  
on the part of the state to infringe by any law  
the right of education and particularly against  
any manner of state force. Therefore we call  
upon our fellow Catholic citizens to give their  
votes only to such candidates who take a cor-  
rect stand on this question.

## FALL FESTIVITIES.

## St. Louis Extends a Cordial Welcome to All.

The city of St. Louis has become famous the country over through the agency of her annual fall festivities, and from that source has gained the sobriquet of the "Carnival City of America."

For the season of 1892 all previous efforts in the line of entertainment will be eclipsed. The great St. Louis exposition threw its doors open to the public Wednesday, September 7th, and will continue to entertain thousands during a period extending over forty days. One of the chief attractions announced by the management is the engagement of Col. P. S. Gilmore and his world-renowned band, one hundred strong. The illumination by gas and electricity of the streets will extend over a larger area and be on a grander scale than any similar exhibition ever attempted in the world. The thirty-second great St. Louis Fair and Zoological Gardens, Oct. 3rd to 8th, whose fame has been heralded broadcast, will be one of the main attractions of that week, and as has been customary for the last thirteen years, the Veiled Prophet will again appear in his favorite city, on the evening of Tuesday, October 4th. The hotel accommodations of St. Louis have been materially increased since last year and strangers are assured of hospitable treatment.

The Missouri Pacific railway and Iron Mountain Route, with their vast net-work of lines extending over the states of Missouri, Kansas, Nebraska, Colorado, Indian Territory, Arkansas, the west, south and southwest, in order to encourage

travel, have made a remarkably low round trip from points on their lines to St. Louis and return during the Festivities.

For further information relative to dates of sale and limits of tickets call on or address any Missouri Pacific or Iron Mountain ticket agent, who will be pleased to furnish same.

## Unclaimed Millions in the Treasury

From the Concord Monitor.  
The announcement is made that Uncle Sam has in his strong safe more than two million dollars of money orders which are long overdue, and which it is probable will never be presented for payment. Besides the United States treasury has about eight million dollars of unclaimed interest on government bonds that has been standing to the credit of bonds of various issues, running back over a period of thirty years. People to whom this latter money is justly due are not aware that it is so due. Suggestions have

been made from time to time that the treasury department should advertise a list of the names of the people to whom this money is due, and it is probable that at some date not very far distant this course will be pursued by the authorities; and then, although a large number of persons will awaken to a realization of their good fortune and find small "wind-falls" awaiting their demand at Uncle Sam's money office. It will also be found that a very large proportion of these unclaimed millions of dollars have no legitimate owners, and the sums thus left will be covered into the already plethoric "surplus fund."

## TWO YOUNG WONDERS.

"Belle Acton" and "Online," the World Beaters, Will Positively Be in Sedalia.

Secretary A. L. Burr returned at noon from Wichita, Kas., where he has been attending the races and advertising the great October meeting at the Sedalia kite track in October.

While in Wichita, Mr. Burr consummated arrangements with the proprietors of the Woodline stock farm, of Nebraska, for the appearance of Belle Acton and Online. The former holds the world's record, 2:12, for a yearling pacer, and the latter, as a two-year-old, has a mark of 2:16.

Mr. Chandler, who has charge of these two great horses, has heard much from other horsemen of the merits of the Sedalia track and told Secretary Burr that he confidently expected to send Online a mile in 2:10. The horses will be sent against time on Wednesday and Thursday, Belle Acton, in all probability, and Martha Wilkes making a double card on Wednesday.

Riley Medium was at the Wichita races, and arrangements for his appearance will doubtless be made with his owners when this celebrated flyer paces at Kansas City next week.

Secretary Burr says that John R. did phenomenal work in record-breaking yesterday. The track was heavy and very cuppy, the horses throwing dirt twenty-five feet behind them. John R. now has a 3-year-old pacing record of 2:14, leading the world. He also won \$1,000 in the race. John Gentry is said to have thrown his hat so high that the Kansas winds never let it touch the earth again.

## GUARDING AGAINST CHOLERA.

Action of the City Authorities in Protecting Sedalia from the Disease.

The fact that the Pacific Express company has selected Sedalia as a fumigating depot to destroy the cholera germs in all quarantined express matter, has caused no little comment on all sides.

There may, and there may not be cholera germs in the articles received, but the average Sedalian does not care to be dodging these invisible "bugs" that are supposed to kill a man quicker than he can swallow a hot potato.

City Attorney John Cashman is busy to-day looking up ordinances which will prevent the express company from establishing such a quarantine in Sedalia, should there be no law against it, the city officials will lose no time in seeing that something is done to protect the city.

## BEAT THE RECORD.

John R. Gentry's Pacer Lowers the Three-Year-Old Record.

Pettis county is getting to be front this year in everything and Sedalia is her capital city.

Yesterday at Wichita, Kansas, John R. Gentry's phenomenal pacer, "John R." lowered the world's three-year-old pacing record to 2:14 on a regulation track, winning the \$1,000 premium.

"John R." is a three-year-old bay colt by Ashland Wilkes and in him his owner has a prize indeed.
